Choice Energy Services Retail scores largest power contract

Houston Business Journal

Choice Energy Services Retail has brokered its largest single load retail power contract to date with the match of Fort Bend Independent School District and **TXU Energy**.

The Houston-based energy consulting and brokerage firm assisted Fort Bend ISD to find a power supplier.

The contract, estimated to save the school district \$773,000 a year, will begin June 2011. Terms include secured power rates for 12 months with the option to extend for an additional year.

The deal marks the first time Choice Energy Services has worked with Dallas-based TXU.
